Julian

Communities, Sport and Recreation (CSR) considers the Return to Sport materials submitted meets the requirements of Tasmania's Plan to Rebuild a Stronger Tasmania (which aligns to the AIS Framework for Rebooting Sport in a COVID-19 Environment) and Workplace Tasmania's COVID-19 Safe Workplaces Framework Minimum Standards. CSR will advise the Local Government Association of Tasmania (which will advise councils) accordingly.

## **Tasmania moved to Stage Three of the Roadmap to Recovery which aligns with Level C of the AIS Framework from 26 June 2020.**

The two square metre rule must be complied with, based on the calculation of one person per two square metres. Where practical, participants/attendees must maintain a distance of at least 1.5 metres.

There is a limit of 250 people per single undivided space indoors (this includes all people – participants, officials, spectators, staff) and a limit of 500 people outdoors.

Spectators are permitted. It is up to Orienteering Tasmania and its clubs to manage spectators and attendance numbers in accordance with the hygiene, safety and distancing requirements.

The sport and recreation information is available on the Coronavirus website at <https://coronavirus.tas.gov.au/families-community/sport-and-recreation>

In the first instance, clubs should refer any of their enquiries to their SSO. If there is doubt or a query, the SSO should refer to CSR.

Most State sporting organisations (SSO) are providing their plans (once CSR has checked them) to clubs and advising/expecting them to implement the measures required (and complete a checklist), rather than to develop their own individual plans.

Councils would like to see/access each SSO plan, which could be achieved through the SSO (preferably) posting it on its website or by providing it to LGAT/councils.

As you know, there will be a need for some discussion between councils and venue user groups (clubs) to clarify exactly who is responsible for what (cleaning and hygiene, spectators, numbers).

We recommend that you should revisit the documents in accordance with the WorkSafe Tasmania Guidelines for Sport and Recreation activities which are available [here](#)

Please get in touch with us if you require further information.
